Register by 1 October 2017

The Test of Mathematics for University Admission

This test is designed to give you the opportunity to demonstrate that you have the essential mathematical thinking and reasoning skills needed for studying a demanding undergraduate Mathematics or Mathematics-related course.

A number of higher education institutions accept the test. Please check our website for information: admissionstestingservice.org/maths-test

What's in the test?

The Test of Mathematics for University Admission consists of two multiple-choice papers which you take consecutively:

Paper 1: Mathematical Thinking	Focuses on assessing your ability to apply your knowledge of mathematics in new situations.
Paper 2: Mathematical Reasoning	Focuses on assessing your ability to justify and interpret mathematical arguments and conjectures, and deal with elementary concepts from logic.

Calculators or dictionaries are not allowed.

Where do I take the test?

If you are currently attending school or college, you can normally take the test at your school: check with your Exams Officer. If your school is not already registered as a centre, they can apply to become a test centre – even if you are the only person taking a test. admissionstestingservice.org/become-a-centre

Once they are a test centre, they will then need to register you as a test candidate separately.

We advise that you take the test at school, if possible, rather than at an alternative authorised test centre. These centres may charge an administration fee in addition to the test fee.

If you are not attending school or college, you may be able to take the test at your old school: check with the Exams Officer. If this is not possible, you will need to find an authorised test centre where you can take the test. admissionstestingservice.org/find-a-centre

When do I register?

Your centre needs to register you. Registration opens on 1 September 2017 and the standard registration deadline is 1 October 2017. **This is done separately from your UCAS application.**

You must give your centre your name, date of birth and UCAS number exactly as they are entered on your UCAS application.

Late registrations are accepted up until 15 October 2017. There is an additional fee for this, so ask your centre to register you for the test **well before the standard registration deadline.**

How much does the test cost?

The standard entry fee within the EU (including the UK) is £29. The standard non-EU entry fee is £43. For details of late entry fees, see our website.

What if I need Access Arrangements?

Access Arrangements are available if you have a disability or special requirement, and are normally entitled to support for exams.

You need to inform your centre of any special requirements when they register you for the test. They will ask for full details and a copy of your medical evidence. Requests for modified question papers must be submitted by your centre by 30 September 2017.

How do I prepare for the test?

Doing practice papers in timed conditions is an excellent way to prepare and gets you used to the test format and question style. You can find specimen papers and the test specification on the website: admissionstestingservice.org/maths-test-prep
